

*Tell me, O Muse, of a treacherous trip, an enigma-filled trek home!
Tossed on the wine-dark sea, one might come upon various strange lands:
Isles where the wily Odysseus has skillfully hidden his old tools.
Seek out each spot of concealment; carefully search for what's cached there.
Once you've assembled your implements, use them for plotting a wise course.
Find then one ultimate riddle... its answer's the end to your brave quest.*
