

## KAYAKING SOLUTION – THIMBLE THEATRE

Clue answers are entered beginning in their numbered square in the grid, and proceed in the direction indicated. At some point, each entry makes a single right-angle turn, as indicated. Each answer, like the word KAYAKING itself, contains a palindromic sequence, and doubles back on itself when entered (this doubling back occurs entirely either before or after the right-angle turn).

Most letters in the grid are used twice (not necessarily in two different words). Letters used only once (shaded below) spell a clue message STRIP DEBUTING POPEYE, the answer to which is THIMBLE THEATRE.
