

THE FOUR AUSPICIOUS BEASTS SOLUTION – NOBLE AUTOMOTIVE

Key to solving the logic is realizing that the instructions imply that the path turns at every shrine (marked or unmarked) and *only* at shrines. Some break-ins can be found in the empty corners, where the path must bend, and therefore continue straight in each direction until reaching a shrine. The correct path is given below.

Following the path, separate the letters and numbers encountered in shrines into sets of the appropriate color. These will each form clues interspersed with numbers (the Vermillion starting shrine is given; the others must be determined). To properly answer each clue, the appropriate Beast name must be incorporated.

Vermillion: FIRE[BIRD] COMPOSER 7, 4, 2, 5 STRAVINSKY N, A, T, V

Azure: MORTY SMITH [DRAGON] 7, 1, 8, 4 BALTHROMAW O, B, M, T

Black: [TORTOISE] PARADOX FOE 6, 4, 7 ACHILLES L, I, E

White: [TIGER] WOODS VENUES 10, 7, 6, 2 GOLF COURSES E, U, O, O

For each answer, use the related numbers in the given order to index into the answer and place those letters in order into the colored array given above the compass. Doing so spells the answer NOBLE AUTOMOTIVE.
