

ACTAEON SOLUTION – CANINE / DARK MEAT

Some tiles (which are given in alphabetical order of images) can be paired to yield deer, and some can be paired to yield dogs.

Deer

Front of back parts of images, can be paired to make the names of Santa's reindeer, ordered traditionally. Using either the left or right stack of hooves from a given tile (depending on whether the left or right part of the word contributes to the deer's name) forms braille letters (as hinted by Actaeon being sent into a "blind panic"). Unused hooves from each pair of deer spell NOT OF USE.

Dogs

The remaining images can be paired to make the names of Best Dog in Show winners (as hinted at by the parenthetical in the flavortext) from Crufts international dog show, the largest of its kind in the world. Dogs are ordered by year of win. Paws can be treated as 6-bit binary ("Six bit him...").
