ARACHNE SOLUTION – INSTALL / SQUEAKER

The nodes along the perimeter of each web represent A, B, C, etc. in order clockwise, with the starting position of each to be determined. Each web traces a clue matching the enumeration below the web. As an aid, the spiders shown face the direction of travel of the web strand where they appear. The red nodes at the top of each web spell, in presentation order, STORY and DEBUT, which fit into the dots at the end of the puzzle to indicate STORY ORDER and DEBUT ORDER for, respectively, 4 items and 6 items.

Clues indicate items from one of two web-related groups: Charlotte's Web messages, or notable webcomics. Webs are given in alphabetical order of clued items. Each item clued is exactly the same length as its clue, though spacing may be different. The spiders given on each web indicate letters from the clued items. These letters should be assigned the ordering given by the numbers in "story order" for the Charlotte's Web entries, and in "debut order" for the webcomics.

S T I L T E D U N D E A D
A W <u>K</u> W A R D Z O M B I E (2006)

S U B T R A C T E D P O T U S T W E N T Y
