

ATALANTA SOLUTION – DISPATCH / PESTER

The filled grid is shown below. For the first extraction, note that four unclued entries appear among the Down answers in the grid (circled in red). These are apple varieties, missing a number of letters. The missing letters, left to right, spell the answer DISPATCH.

For the second extraction, note the six places in the track where racers are "neck and neck"; that is, all the same letter. In track order, these letters spell the answer PESTER.

The grid contains the following words:
